

	Prop
	Pro
Energy Policy	
Affordable, Reliable, Available Energy is mandatory for manufacturing	X
Manufacturing benefits society through jobs, taxes, etc.	X
Conserve with Energy Efficiency	X
Optimize, Increase, and Diversify Domestic Hydrocarbon Resources.	
Accelerate Cost Effective Clean Energy Alternatives	X
Transition to a Sustainable Future	X
Realistically set GHG reduction targets for all the major economies,	
Encourage investment in the US for Energy Efficiency	X
Avoid Taxing hydrocarbon feedstocks	X
Coordinate regulations and policies that affect industrial energy usage.	X
Need for a US Energy Policy	X
Energy Resources	
Energy Diversity	X
Fossil Fuels (Oil, Natural Gas)	X
Fossil Fuel (Coal)	X
Nuclear	
Renewables	X
Hydroelectric Power	
Natural Gas Drilling	X
Natural Gas Fracking	X
Oil Drilling	
Oil Refining	
Coal Mining	X
LNG Exporting	
Renewable, Alternative, Low Carbon Energy Sources	X
Climate Change and Carbon Capture	
Energy Production from Federal Lands	
Energy Delivery	
Delivery Infrastructure Capacity and Reliability	X
Combined Heat and Power	X
Demand Side Management	X
Industrial Energy Efficiency	X
Commercial Energy Efficiency	
Residential Energy Efficiency	
Transportation Energy Efficiency	
Environmental Quality and Sustainability	
Sustainability	X
Standards	X
Hazard Identification, Risk Assessment and Risk Management	
Compliance and Enforcement	
Proprietary and Confidential Information	X

Hazardous and Non-Hazardous Waste Management	X
Waste Management Methods	
Toxic Substances Control	
Integrated Risk Information System (IRIS)	
Superfund Reform Principles	
Product Labeling and Marketing Standards	
Water Quality and Treatment	
Best Available Technology (BAT) Economically Achievable	X
Nonpoint Source Pollution	
Groundwater	
Water Conservation	
Air Quality Control	X
National Ambient Air Quality Standards (NAAQS)	X
Emission Offsets and Controls Required in Non-Attainment Areas	X
Hazardous Air Pollutants	X
New Source Performance Standard (NSPS)	X
Environmental Justice	
Facility Security	X
Recycling
