

ENERGY COMMITTEE

PURPOSE & OBJECTIVES

Chairman: TBD

Vice Chairman: Robin Mills Ridgway, Purdue University

PURPOSE:

To be the primary forum for the development and dissemination of technically sound, equitable, cost effective policy, laws and regulations affecting energy products, sources and equipment (fuels, electricity and production equipment) use, applicability and cost for CIBO members and all industrial boiler owners and operators.

OBJECTIVES:

1. Develop and promote policy positions on energy issues affecting CIBO members and all industrial boiler owners and operators.
2. Formulate and set priorities on advocacy strategies for advancing CIBO energy objectives.
3. Provide a forum for the exchange of energy and related information within the membership and between the membership and government and other public bodies.
4. Assess and promote coalition building with other associations and organizations for meeting CIBO energy strategies.

SUBCOMMITTEES, TASK GROUPS, ETC.:

ENERGY POLICY STEERING COMMITTEE
RETAIL WHEELING TASK GROUP
Sustainability Sub Committee

MEMBERSHIP COMMITTEE

Chair: Mark Bitto, ABB, Inc.
Vice Chairman: Bill Gurski, TBE, LLC

PURPOSE:

To be the primary CIBO staff support in developing and implementing programs, materials and activities to attract new members, retain existing members and recover former members -- to expand CIBO membership to meet the energy and environmental objectives of the association.

OBJECTIVES:

1. Develop annual membership goals and objectives for CIBO and assist in meeting these.
2. Provide a forum to review and evaluate new member categories, programs, materials, member services and activities to support the needs of the association and its members.
3. Develop the appropriate support materials to facilitate justification of CIBO costs to upper management.
4. Be the primary source of marketing and sales support, member contact and new member introduction to CIBO activities.
5. Assist in the development of a long-term strategic marketing plan and provide for an annual review to assess the needs of the members and members services provided by the association.
6. Develop and annual report on the pressures affecting the industrial boiler owner and operator.

GOVERNMENT AFFAIRS COMMITTEE

PURPOSE & OBJECTIVES

Chair:: TBA

PURPOSE:

To be the primary forum for developing, directing and implementing CIBO=s legislative lobbying strategy to meet the energy and environmental objectives of the association and its members.

OBJECTIVES:

1. Develop appropriate legislative lobbying strategy to address the energy and environmental objectives of CIBO as defined and generated by the policy committees and members at large.
2. Review and assess CIBO position statements for content and applicability to the overall lobbying efforts on the industrial boiler owner community and individual CIBO members.
3. Work with CIBO staff and lobbying support organizations to implement legislative strategies, arrange meetings with appropriate representatives and staffs as needed.
4. Recommend issues and activities for technical and policy committee consideration, evaluation and development in light of broader national policy impacts on industry.

ENERGY COMMITTEE

PURPOSE & OBJECTIVES

Chair: TBD

Vice Chair:: Robin Mills Ridgway, Purdue University

PURPOSE:

To be the primary forum for the development and dissemination of technically sound, equitable, cost effective policy, laws and regulations affecting energy products, sources and equipment (fuels, electricity and production equipment) use, applicability and cost for CIBO members and all industrial boiler owners and operators.

OBJECTIVES:

2. Formulate and set priorities on advocacy strategies for advancing CIBO energy objectives.
3. Provide a forum for the exchange of energy and related information within the membership and between the membership and government and other public bodies.
4. Assess and promote coalition building with other associations and organizations for meeting CIBO energy strategies.

SUBCOMMITTEES, TASK GROUPS, ETC.:

ENERGY POLICY STEERING COMMITTEE
RETAIL WHEELING TASK GROUP
Sustainability Sub Committee

ENVIRONMENTAL COMMITTEE

PURPOSE & OBJECTIVES

Chair:: Kristine Davies, Trinity Consultants Inc.

ViceChair: Thuy Mai, DuPont

PURPOSE:

To be the primary forum for the advancement and development of policy, strategy and positions for technically sound equitable, cost effective environmental policy, laws and regulations affecting CIBO members and all industrial boiler owners and operators.

OBJECTIVES:

1. Develop and promote policy positions on environmental issues affecting CIBO members and all industrial boiler owners and operators.
2. Formulate and set priorities on advocacy strategies for advancing CIBO environmental objectives.
3. Convene appropriate task groups and sub-committees to define objectives, strategies and actions on issues affecting CIBO members.
4. Provide a forum for the exchange of information on environmental issues within the membership and between the membership and government and other public bodies.
5. Assess and promote coalition building with other associations and organizations to increase overall effectiveness in meeting CIBO environmental objectives.

TECHNICAL COMMITTEE

Chair: Mike Zebell, ERM

Vice Chair: TBD

SCOPE AND FUNCTION:

Promote safe, reliable and cost-effective practices in the design, operation and maintenance of industrial energy steam and power systems.

PURPOSE:

Promote timely technology transfer within the industrial community insuring CIBO members are kept abreast of equipment development, operations, and technological developments. Such technology transfer would include:

- ❖ Information from other industry groups such as ASME, ABMA, ISO, NFPA and arrange for liaison contacts with these and other industry groups.
- ❖ Information regarding regulatory actions, monitoring codes standards and safe practices, relating to equipment operations.
- ❖ Provide a forum for disseminating mutually useful technical information by sponsoring roundtable discussions, general technical presentations, and electronic information exchange.
