

CIBO – Active Committees and Policy Priorities for 2022

December 8, 2021

Alex Stoddard, CIBO Executive Director

CIBO Active Committees - 2022

- **Membership Committee**
 - Mark Bitto, ABB, Inc.
- **Energy & Sustainability Committee:**
 - Robin Ridgway, Purdue University
- **Government Affairs Committee:**
 - Neil Naraine, International Paper
- **Environmental Committee:**
 - Bob Morrow, Detroit Stoker Co.
- **Technical Committee:**
 - Elrie Bennett, The Dow Chemical Co.

CIBO – Major Issues: Positions and Advocacy

- Decarbonization Challenges, Strategies and Roadmap: Industrial, Commercial & Institutional Sectors.
- CHP and Thermal Energy: Assuring its Future Viability
- Control and data system implementation – Plant Operations
- Future Infrastructure Needs: Electric Grid Modernization, Hydrogen, Pipelines, etc.
- Hydrogen Production: Promoting and Using All Forms.

CIBO Major Issues: Positions & Advocacy

- Climate/Carbon Accounting: Carbon Pricing, Carbon Markets and Social Cost of Carbon.
- ESG – Risk and Carbon Footprint: Compiling, Analyzing, Scoring and Disclosing.
- Energy/Battery Storage: Technology Challenges
- Biomass Residuals – Carbon Neutrality/Opportunity Fuels.
- Scope 4

CIBO Major Issues: Positions & Advocacy

- Powerhouse & Industrial Boiler Challenges: compliance permitting, training and reporting requirements.
- Thermal Energy Production: Technical Focus on Adaptation.
- Alternative Fuels - Combustion, Compliance, & Technology Issues: Biofuels, Hydrogen, Ammonia, Bio-wastes, Solar and Wind.
- Carbon Capture and Storage (CCS): Technology Challenges and Infrastructure Needs.
- Plant Operations: Integrated Implementation of Control and Data Systems.

CIBO Major Issues: Positions & Advocacy

- Environmental Justice: Enforcement – Federal and State Levels.
- EPA GHG Reporting Rules.
- EPA Water Regulations – Clean Water Act:
 - WOTUS, PFA's
- EPA Air Regulations - Clean Air Act:
 - NAAQS
 - CSAPR
 - MACT Rules
 - HFC's
